

Avantgarde XXL2

The Avantgarde XXL2 gives outstanding stability combined with easy operation, with a timeless design. The strengths of the Avantgarde XXL2 are the robust base structure which offers reliability in any situation while the use of high quality materials keeps the weight of the chair as low as possible at approx. 17kg.

This wheelchair is designed for people with the need for a heavy duty chair. The quality and functionality of the Avantgarde XXL2 makes this chair the most stable folding wheelchair that can hold a maximum weight limit of 180kg and seat width of 62cm.
