

SMART E-MOBILITY

## Accessories for FreedomChairs

### Headrest

A fully adjustable headrest that can be easily attached / removed from the chair.

*Fits: A06, A06L, A08, A08L*

### Attendant Control Kit

With an Attendant Control Kit, your FreedomChair can be steered by a Carer/Attendant walking behind the chair. The thumbstick allows steering in all directions and the kit includes a pair of height-adjustable rear-facing handles for stable control. This kit helps to lengthen the usable life of a FreedomChair should the user become less able to control the chair from the main front joystick. *Fits: A06, A06L, A08, A08L*

### Cup Holder

A quality, adjustable cup holder. Handy for holding a cup / bottle and keeping one hand free. Fits to the armrest not used by the joystick.

*2 versions: Specify for A06/A06L type or A08/A08L type*

### Seat Widening Kits

If the chair you prefer is within your user weight limit, but it feels a little snug between the armrests, a seat widening kit can be easily fitted to give you that bit of extra space. Available in two sizes, the kits can add a total of 60mm (2.5") or 100mm (4") between the armrests.

*2 versions: Specify 3cm/side type or 5cm/side type*

## Accessories for FreedomChairs

### Seat Elevation Kit

Working in a similar way to a rise and recline chair, the Seat Elevation Kit will comfortably raise or lower the user when leaving or entering the chair. The feature is simply operated by a long press on the speed increase + button to raise the seat and lowering is by a long press on the speed decrease – button. The kit can be specified when ordering your chair and retro-fitted to recent A08 & A08L models.

*Fits: A08, A08L*

### Trailer

The power of this FreedomChair is enough to not only move you along very capably, but it can also tow this handy trailer unit behind it. Rigidly connected with easy to fit spring-bolts, the trailer is equipped with swivel castors to make turning and reversing no problem at all. A useful accessory for carrying that shopping bag or a suitcase for example.

*Fits: A08, A08L*
